

# Target: Type 2 Diabetes <sup>SM</sup> Outpatient Program Recognition Program

You're committed. Your patients should know it.

The Target: Type 2 Diabetes <sup>SM</sup> program is the newest quality improvement and recognition opportunity for organizations providing outpatient care related to type 2 diabetes and cardiovascular risk factors. Brought to you by the American Heart Association and Know Diabetes by Heart<sup>TM</sup>.

## HOW TO PARTICIPATE:

---

### 1. Register for the initiative

All organizations who treat adult patients in the outpatient setting and have an interest in receiving program communications, educational materials, regional support, and recognition are encouraged to register with Target: Type 2 Diabetes. [Registration](#) is available year-round.

### 2. Submit

Beginning January 1st of each year, registered organizations may provide information related to their patient population, clinical protocol and processes, and outcome related summary data into our data submission platform by the deadline.

### 3. Be Recognized

Organizations that meet the following criteria and commit to improvement are eligible to be recognized as a Target: Type 2 Diabetes Participant or Gold award recipient.

## MORE ABOUT MEASURES:

---

All measures submitted for the purpose of quality improvement tracking and recognition opportunities are

### Diabetes measure required for all participants:

- Diabetes: Hemoglobin A1c (HbA1c) Poor Control (>9%) (NQF 0059/MIPS #001)
  - Gold: Annual rate of 25% or less for HbA1c Poor Control (>9%) amongst all eligible patients for the previous calendar year.

### CVD risk management measures (select at least 1):
