To begin hold in plank position (make sure to tighten abs) and bend and straighten at elbows. You may also do pushups from the floor (begin with knees on the ground and work up to full pushups).

Add Intensity: Lift one leg behind you and hold during pushups or plank. Repeat for other leg.

Add Intensity: With hand on top of head in each position, apply light pressure to increase stretch.

Leg Lifts

Activity: Sitting at the front edge of a chair with feet flat on the floor, straighten one leg out in front of you and hold in place for a few seconds. Return foot to floor and repeat and alternate legs.

Add Intensity: Instead of sitting on chair, support your weight with your hands.
